7.	The deadline	-	subject of the contract by the	Contractor on the agreed da	ite with the
	for the subject	Ordering Party			
	of the offer				
8.	Criteria for the	The selection of	the best offer will be based o	n the following criteria:	
0.		1000	the best offer will be based of	ir the following criteria.	
			price of the offer		
	the offer and		realization		
	the manner of				
	making the	The net price of	the offer should be expressed	l in Polish zlotys or in euros.	
	assessment:	If the price is expressed only in EUR for the purpose of comparing prices and selecting			
		the best offer, the price expressed in EUR will be converted into Polish zlotys based on			
		the average NBP exchange rate EUR / PLN as at the date specified in point 4 (deadline			
		for submission of bids) The Ordering Party stipulates, that any amounts given in EUR			
			of comparison of offers by the	Employer will be converted	into pln in
		the manner indicated above.			
		The criteria assessment criteria: Criterion "Bid Price"			
		The offer will receive the number of points resulting from the equation:			
		minimal price			
		$W_{price} = \frac{minimal\ price}{test\ price} * price_{max} * 0,9$			
		Where:	ı		
		Wprice - means t	he number of points obtained	in the Bid Price criterion;	
			ns the minimum net price pro		evaluated;
			ns the net price offered in the		
		Price max - means the maximum net price proposed among the bids to be evaluated;			
		The test price is determined on the basis of the following equation:			
		$tested\ price = price\ of\ the\ raw\ material + cost\ of\ transsport$			
		price of the raw material – the price of the purchase offer			
		cost of transport - all costs related to freight forwarding, insurance, customs services  Bids, that do not include the above criteria will not be considered			
		, do not motion the documental fill not be considered			
		Criterion "Time limit for completion"			
		In the case of the "Time limit for completion" criterion, the offer will receive the			
		number of points resulting from the equation:			
		$P_i(t) = \frac{t_{min}}{t_i} * T_{max} * 0.1$			
			$t_i$	mux -/	

## Where: Pi(T) - the number of points that will receive the bid "i" for the criterion "Time limit for completion" Tmin - the shortest realisation time among all valid and not rejected bids Ti – Time of realisation the bid "i"; Tmax - the longest realisation time of the bid The most-advantageous bid will be selected (with the highest number of points), which, taking into account the bid submitted, falls within the financial capabilities of the Ordering Party.

Annex No. 1 to the inquiry
